Varimixer

ERGO100

ERGONOMIC HANDLING Separate removal of bowl and tools. The taller frame allows you to lower the bowl below the tool, so each of them can be removed separately, increasing efficiency.

CONTROL PANEL Choose between variable speed control, fixed speeds or up to 20 programs with their own processes. All operations are controlled from the intuitive, angled touch panel control panel.
The panel is easy to clean and is dustproof and waterproof.

REMOVABLE The removable safety guard is made of stainless steel is easy to remove and dishwasher safe.

ERGONOMIC WORKING HEIGHT All work at Varimixer ERGO is done with a straight back. There is unhindered access to changing tools at the correct ergonomic working height.

ONE MACHINE – MULTIPLE CAPACITIES The ERGO100 has optional equipment for 60 and 40-litre production. The option of producing reduced quantities makes the large machines more versatile.

AUTOMATIC BOWL LOWERING It is not necessary to watch the mixing process. When the time is up, the control system lowers the bowl, so the tools can drip off directly into the bowl.

LIFT FOR EASY HANDLING Even the largest bowls can be easily and ergonomically lifted using an electronic bowl lift, which also ensures correct working height during filling and emptying. Choose from several models - or choose a manual bowl truck for transport only.

HYGIENIC AND EASY TO CLEAN ERGO 100 is available in white or stainless steel. All accessories are made of stainless steel, and the design ensures the best possible hygiene and very easy cleaning. Varimixer ERGO can be washed in accordance with the IP53 standard, and can be upgraded to either a marine version or IP54 cleaning, with a waterproof stainless steel mixer head.

NO HEAVY LIFTING The bowl is wheeled into place between the two arms. The bowl is automatically centered and locked into positin, when raised.

ERGO VL-5 - Next generation - New functions
Introducing the next generation ERGO series and AR200

Compared to the previous version VL-4, the new VL-5 version has been upgraded with the following innovative unique features:

- **New self-lubricating lifting motor**
  for a service free extended lifetime.

- **Extended bayonet system**
  for increased contact surface area with the mixing tools. This will reduce wear on both bayonet and mixing tools and extend their lifetime

- **USB service port**
  for fast and secure software upgrades, recipe downloads, workload data history and much more.

- **All new VL-5 control panel**
  with multilingual screen, individual interfaces, recipes and control options. Direct access to online user- and service manuals.

- **Environment friendly produced**
  Every detail, from the choice of IE3 motor to recyclable packing and the total lifetime expectancy of this product, has been carefully evaluated to minimize the environmental impact of this product line.

New VL-5 Control Panel

Touch panel to operate:

ERGO60 · ERGO100 · ERGO140 · AR200

Programmed receipes can be upload via USB. Excel or Google Sheets can be used as a programmable editor.

USB - IP65 Protection

FEATURES

- Auto switch to large time counter

- Lowing the bowl up and down via the arrows on the screen

- Direct time setting by pressing the clock

- Favorite buttons for quick start of selected recipe

- 20 programs available

- Programming can be done on the control panel

- Programming can be done on a PC with subsequent upload to the machine using USB

- Readout of operating data on panel or for download via USB

- USB connector on the machine for uploading recipes

- USB connector on machine for up-download of machine log

- Optional PIN code protection of recipes

- Access to operating instructions and video instructions via QR codes

- Language selection of control panel

ERGO - VL-5 Control Panel - Highlights

VL-5 Main Menu - Easy access to:

- Start / Stop

	Dough, gluten free	47	kg	

The capacity chart shows the maximum capacity for the specific machine. The testing has been conducted with standard equipment. Therefore, the use of special tools, can result in a different outcome. Always start the machine at the lowest speed. Increase the speed subsequently, taking the product being mixed into account.

Symbols explainer - Recommened actions:

✦ = Apply scraper, for the best and most efficient result

□ = Always make sure the ingredients are room temperature/soft.
   If not, this can damage the tools.

◐ = Recommended to work on low speed.

○ = Recommended not to go above medium speed.

AR = Absorption Ratio (moisture in % of dry matter)
